PROFESSIONAL SUMMARY

B.Sc. Information Technology graduate (83.6%) with hands-on project experience in SQL, Python, Excel, and Power BI. Skilled in data cleaning, exploratory data analysis (EDA), KPI analysis, and dashboard reporting, with projects across supply chain operations, retail sales, customer churn, and employee attrition.

TECHNICAL SKILLS

Data Analysis: Data Cleaning, Exploratory Data Analysis (EDA), KPI Analysis, Data Visualization, Reporting
SQL & Databases: SQL, MySQL, Joins, Aggregations, CTEs, Window Functions
Python: Python, Pandas, NumPy, Matplotlib
Power BI: Power BI, Power Query, DAX, Data Modeling, Interactive Dashboards
Excel & Tools: Pivot Tables, VLOOKUP, IF, SUMIF, COUNTIF, Jupyter Notebook, Git, GitHub

PROJECTS

Global Supply Chain & Inventory Intelligence | *SQL, Python, Dashboard Development*

GitHub Link: https://github.com/Swethaa1402/Global-Supply-Chain-Inventory-Intelligence

- Analyzed 180,519 supply-chain records to assess delivery performance, inventory patterns, order profitability, and operational KPIs.
- Engineered an end-to-end analytics pipeline covering raw data cleaning, multi-table SQL querying, KPI modeling, and multi-page dashboard reporting.
- Found a 57.29% late-delivery rate among non-cancelled delivery records and examined delivery performance across shipping modes.

Retail Superstore Sales Analysis | *SQL, Python, Power BI, Excel*

GitHub Link: https://github.com/Swethaa1402/Retail-Superstore-Sales-Analysis

- Analyzed 9,994 retail records to examine sales, profitability, product categories, regional trends, and performance over time.
- Cleaned transaction data and performed exploratory analysis to prepare data for reliable reporting.
- Developed Power BI visualizations to compare sales and profitability across key business dimensions.

Customer Churn Analysis — Executive Intelligence Dashboard | *MySQL, Power BI*

GitHub Link: https://github.com/Swethaa1402/Customer-Churn-Analysis-Executive-Intelligence-Dashboard

- Analyzed customer churn and retention patterns using SQL and calculated an overall churn rate of 26.54%.
- Architected an interactive Power BI dashboard utilizing dynamic DAX measures, filtering, and churn risk indicators to support retention strategies.

HR Analytics — Employee Attrition Analysis | *SQL, Power BI, DAX*

GitHub Link: https://github.com/Swethaa1402/HR-Analytics-Employee-Attrition-Analysis

- Examined employee attrition across demographic and job-related attributes to review workforce patterns.
- Built a multi-page Power BI dashboard covering executive insights, employee demographics, and attrition analysis.
- Created DAX measures to support consistent attrition KPI reporting.

EXPERIENCE

Front-End Developer Intern | Robomattic (A Division of CADD Technologies) | *May 2025 – June 2025*

- Developed responsive UI components for a video-streaming platform using React, JavaScript, and CSS.
- Integrated RESTful APIs and front-end data consumption pipelines, collaborating with backend developers to optimize data fetching and application performance.

EDUCATION

B.Sc. Information Technology | PSG College of Arts & Science, Coimbatore | 2023–2026 | 83.6%

CERTIFICATIONS

NPTEL — Data Analytics with Python | Simplilearn — Introduction to Data Mining | Simplilearn — Power BI Data Modeling with DAX

LEADERSHIP & ACTIVITIES

Smart India Hackathon — Internal Round 2 Participant (twice) | Executive Member, Entrepreneurship Cell | SEED Representative (2nd–3rd year) | IIC Student Champion | Co-founder, Elixor | Gateway'25 Event Leadership
